

## *Compassionately Talking About Abortion*

A one hour training for Christians wanting to make the church a safe place for women facing unintended pregnancy and past abortions.

**Statistics say that 4 out of 10 women who have abortions attend church at least once a month.**

**Only 16% talked to anyone in the church about it.**

These statistics are heartbreaking, and we know this does not properly reflect the heart of the church. We know it is not because the church does not care, but perhaps because they lack the tools and language to connect with women considering an abortion decision. In this training session, North Care Clinic will offer their expertise and insights from their 38 years of serving women in our local communities.

**Friday, March 24<sup>th</sup> – 5 pm to 6:15 pm**  
**Saint Philip Orthodox Church –**  
**1970 Clearview Rd, Souderton PA**  
**Refreshments will be Served - All are Welcome!**
