

*A Gift*

For My  
Loved  
Ones

*This package contains everything you need to know if I am disabled,  
or incapacitated and cannot make decisions for myself.*

*It includes my Health Care Power of Attorney and  
Advance Directive for Health Care - Living Will*

Dear Loved Ones,

It's hard to think about death. We cling so hard to the temporary pleasures of this life that sometimes we forget our true life; life in Christ. My life with you has been a gift from God. Through all the struggles, pain and great joy I have been loved by you and always by God. As an Orthodox Christian I've always known that our true home is with Christ. There will be no sorrow, no sadness and no loss, only love and joy when we are all together with our Lord.

Long ago I placed my life entirely in the hands of our gracious Lord. I know there are many things that I can't control, but there are several things that it's not only my option but it's also my duty to control. If I should be in an accident or otherwise incapacitated I know it would be very stressful for my loved ones to make the hard decisions that might need to be made. So I'm taking the hard step of thinking about these things myself so that you know how I would make these decisions and what I would want you to do.

In the following pages I will name a person to hold primary Health Care Power of Attorney and an alternate. I will give that person authority to make those hard decisions and direction by my own wishes. In another document I'll name someone to make funeral arrangements for me through my Advanced Directive for Funeral Care and I will give them guidance as to my wishes with my funeral planning form.

In the event that I am gravely or terminally ill or in a state of diminished consciousness so that I can't make decisions for myself, I direct that decisions be made for me that are in conformity with the beliefs and tenets of the Eastern Orthodox Christian Church, some of which are outlined below. I request that an Orthodox priest be contacted to visit with me, hear confession and bring communion for some time prior to my death. When my death is near I request him to be present so that I might make a final confession of my sins and partake of the prayers and sacraments of the church. I also request that Orthodox Prayers for the Newly Departed be said immediately after my death.

My Orthodox Christian beliefs hold that it is unethical to take a life. While it is not the highest of all values to preserve life, affirmative steps to cause death, including but not limited to euthanasia or suicide, are not blessed by the Church. However, it can be permissible, and even appropriate, to allow nature to take its course without extraordinary medical intervention, until God determines to take my life. Using extraordinary medical measures to merely maintain my body's biological functioning may not be appropriate. My death, if with dignity and with proper respect for the rites and traditions of the church, can be a victory of faith.

The Orthodox Church does not condone Physician Assisted Suicide, removing artificial nutrition/hydration from a patient who is conscious but unable to communicate, nor removing artificial nutrition/hydration from a patient who has severe dementia but otherwise has no other acute health problems. However, I also recognize that , as one begins the dying process, forced nutrition/hydration do not help but can interfere with the process and can cause great discomfort. In this case, with the approval of my Agent and my doctors, nutrition/hydration may be withdrawn in favor of proper maintenance of my mucus membranes for my comfort.

Any type of Physicians order for Life Sustaining Treatment signed by a physician or my Agent must be consistent with the contents of my directives contained here.

The original of this form should be with the Agent named on this document. A copy should be with the alternate Agent named, and a copy on file with my church or burial society. Other copies should be distributed to my spouse, children, parents and/or any others who might need to know this information. A copy should be supplied to any hospital, nursing home, rehabilitation center, assisted living or other health care facility that I may enter. I do this to help avoid any

confusion over who I have authorized to make decisions regarding my healthcare and my remains after my death.

If I become incapacitated and unable to make my own healthcare decisions I name the following person(s) to make those decisions on my behalf based on my Orthodox Christian beliefs. The judgment of my incapacity to make health decisions must be made and agreed to by at least two medical physicians who have personally examined me.

I understand that this document gives the person(s) I name as my agent the power to make health care decisions for me if I can't make the decisions for myself. This power includes the power to make decisions about life-sustaining treatment. In the event of my incapacity my agent will have the same authority to make decisions about my healthcare, as I would have. My agent will be obligated to follow my instructions when making decisions on my behalf. After I have signed this document, I have the right to make health care decisions for myself if I am mentally competent to do so. After I have signed this document, no treatment may be given to me or stopped over my objection if I am mentally competent to make that decision. I have the right to revoke this document, and terminate my agent's authority, by informing either my agent or my health care provider in writing.

This Healthcare power of attorney will not be valid unless two persons sign as witnesses and a Notary Public is present to witness all our signatures.

The following persons may NOT act as witnesses:

1. A person who is directly financially responsible for my medical care.
2. A person who is named in my will, or, if I have no will, who would inherit my property by intestate succession.
3. A beneficiary of a life insurance policy on my life.
4. The persons named in the Health Care Power of Attorney as my agent or successor agent.
5. My physician or an employee of my physician.
6. Any person who would have a claim against any portion of my estate (persons to whom I owe money).

If I am a patient in a health facility, no more than one witness may be an employee of that facility.

My agent to whom I grant Healthcare Power of Attorney must be a person who is 18 years old or older and of sound mind. It may not be my doctor or any other health care provider that is now providing me with treatment or an employee of my doctor or provider; or a spouse of the doctor, provider, or employee; unless the person is a relative of mine.

I understand that this letter to my loved ones is only explanatory. The terms and conditions of my Healthcare Power of Attorney and Living Will shall govern.

With love,

## II - Effectiveness of Appointment

Absent revocation, the authority granted in this document shall become effective when and if my attending physician and one other physician who has personally examined me shall determine that I lack sufficient understanding or capacity to make or communicate decisions relating to my health care, including mental health treatment, and will continue in effect during my incapacity, until my death, except if I authorize my health care agent to exercise my rights with respect to anatomical gifts, autopsy, or disposition of my remains, this authority will continue after my death to the extent necessary to exercise the authority granted in this document for these purposes; provided, however, that paragraph I of Section III following shall be effective upon the signing of this document and is not dependent upon my incapacity. This determination shall be made by my then treating physician.

## III - General Statement of Authority Granted

Except as indicated in section IV below, I hereby grant to my health care agent named above full power and authority to make health care decisions, including mental health treatment decisions on my behalf, including, but not limited to, the following:

Life-sustaining procedures are those forms of medical care that only serve to artificially prolong the dying process and may include mechanical ventilation, dialysis, antibiotics, and other forms of medical treatment which sustain, restore or supplant vital bodily functions. Life-sustaining treatments could also include artificial nutrition and hydration when the conditions above are met, and they are only prolonging the dying process.
- H. To exercise any right that I may have to make a disposition of any part of my body for medical purposes: to authorize an autopsy only if required by law; to make an anatomical gift of my organs or part thereof, but not my whole body; and to direct the disposition of my remains according to the rites and teachings of the canonical Orthodox Christian faith; and

The authority given my agent shall supersede any prior agreement that I may have made with my health care providers to restrict access to or disclosure of my individually identifiable health information. The authority granted under this HIPAA Release is effective immediately. The authority given my agent has no expiration date and shall expire only in the event that I revoke the authority in writing and deliver it to my health care provider. and

## DECLARATION OF A DESIRE FOR A NATURAL DEATH

I, \_\_\_\_\_, of (Town) \_\_\_\_\_, [State] \_\_\_\_\_, believe it is important to make known my decision regarding the administration and continuation of any medical procedure or intervention that would serve only to postpone the moment of my death. To this end I am making the following declaration.

I am of sound mind and at least eighteen years of age. I direct that my life shall not be artificially prolonged under the circumstances set forth below and hereby declare that:

If at any time my attending physician and one other physician who has personally examined me certify in writing that I am: (initial all those that apply)

\_\_\_\_\_ Permanently unconscious with a ventilator breathing for me;

\_\_\_\_\_ Permanently unconscious with a feeding tube and/or intravenous (IV) hydration;

\_\_\_\_\_ Maintained on a ventilator when there is little or no chance for recovery;

\_\_\_\_\_ or In any other permanent and terminal medical condition due to which the application of life sustaining treatment would serve only to artificially prolong the process of dying or maintain me in the permanent medical condition, then;

I direct that life-sustaining procedures shall be withdrawn and withheld pursuant to the terms of this declaration, it being understood that life-sustaining procedures shall not include any medical procedure or intervention for nourishment and hydration considered necessary by the attending physician to provide comfort or alleviate pain. The life-sustaining procedures which may be withheld or withdrawn include, but are not limited to: surgery, antibiotics, cardiac resuscitation, respiratory support, chemotherapy, radiation, dialysis and transfusions, and other forms of medical treatment which sustain, restore or supplant vital bodily functions.

I seek treatment only to keep me comfortable, even if such treatment may shorten my life.

Note: Physician Assisted Suicide is prohibited. Removing artificial nutrition/hydration if I am conscious but unable to communicate but otherwise have no other acute health problems is prohibited. Removing artificial nutrition/hydration if I have severe dementia but otherwise have no other acute health problems is prohibited.

However, I may specifically direct that artificial nourishment be withdrawn or withheld pursuant to the terms of this declaration above. "Artificial nourishment" means nourishment supplied by means of a naso-gastric tube or tube inserted into the stomach or intestines, or nutrients injected intravenously into the bloodstream.

With respect to Nutrition and Hydration, I direct that in situations where life-sustaining treatments are being withheld or withdrawn pursuant to conditions above (INITIAL **ONLY ONE** OF THE FOLLOWING THREE PARAGRAPHS):

\_\_\_\_\_ Artificial nourishment shall not be continued; or

\_\_\_\_\_ Artificial nourishment shall be continued; or

\_\_\_\_\_ Artificial nourishment shall be continued until such time as my Agent and two (2) physicians who have personally examined me determine that the dying process has begun and continuation of nutrition/hydration would only cause me discomfort.

In the event my physicians certify my condition as terminal, my physician may discharge his or her obligation of notice by notifying my Health Care Agent or any successor Health Care Agent serving under my Health Care Power of Attorney.

This instrument is made and given in the full knowledge that I can rely on the love and affection of my relatives and friends and with thankfulness that they will understand my reasons.

This the \_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_. \_\_\_\_\_
